

Instructions for the Christmas Advent Calendar

vintage groen mosterd-okker perzik roze zee groen wit katoenen paneel stof
adventskalender x-mas

Supplies:

- Scissor
- Thread
- Pins
- Ribbon/Sticks
- Interfacing
- Piece of fabric to attach the pockets on. This will also be the backside.
140 x 75 (double folded)

Instructions:

1. Cut out along the dashed cutting line. The blue stripes are piping bands.
2. Iron the interfacing on one side of the attachment fabric.
3. Iron and stitch the sides of the attachment fabric over 1 cm.
4. Fold 10 cm at the top of the attachment fabric and stitch it. This is the tunnel for the pole.
5. Iron the piping in half, then iron both sides to the folding line in the middle, so it will look like bias tape.
6. Pin the piping tape around the top of the bag edges and stitch.
7. Fold 1 cm at the left and right of the pocket sides and iron.
8. Attach the pocket strips to the attachment fabric and topstitch leaving the top open.
9. Stitch vertically inbetween pockets so that each row has 4 pockets.
10. Pull the stick through the tunnel and attach a ribbon/rope on the stick so you can hang it up.
11. Fill with gift and wait until December 1st!
